

I am opposed to expanding LPFM stations. I am a current listener and financial supporter of K-LOVE Radio in Santee, California and would be bereft of a vital service if it were no longer available. K-LoVE provides family-friendly news as well as music and commentaries that cannot be located otherwise. Other stations do not provide a safe environment for my children in their wording, tone, values and commitment to good moral values. My family has no other reliable source for encouragement on other radio stations. K-LOVE is committed to community news and updates. K-LOVE is committed to bringing good quality information about world-related news items. K-LOVE helps to bring other churches and faith-based organizations into communication with each other in order to encourage and support each other. Without K-LOVE I would not listen to the radio of any kind. PLEASE do not interrupt its vital ministry and service to me, my family, my community, my world.
Thank You.
